

Setting Up The Google Classroom App with a Glow Account

1. Access the App Store or Play Store on your device and search for 'Google Classroom'. Click 'Get' or 'Install' if not already on your device.

2. Once downloaded, open the app and tap 'Get Started'.

3. To login, pupils are required to use their Glow account. Click 'Add another account'.

Note that personal email accounts will not give you access to your Google Classrooms that you have joined in school.

4. Enter your Glow username in the following format and click 'Next':

Sign in

Google

Sign in

Use your Google Account. You'll also sign in to Google services in your apps.

Email or phone

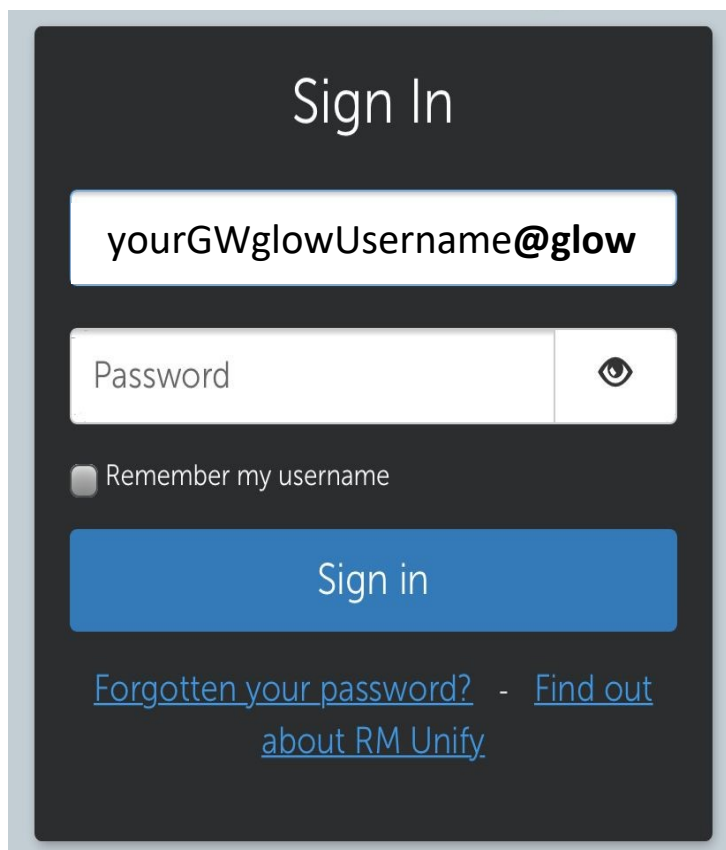

yourGWglowUsername@sl.glow.scot

6. Once logged in, you should see the list of classes that they have already joined.

If you have not yet signed up to any classes, then tap '+', then 'Join Class' and then enter the code for the class you wish to join.

7. If you have joined classes before, have logged in, but don't see your classes, then you are most likely using a 'non-glow' account. Tap on the 'burger'  Google Clk then select your Glow account. You should now see your classes.
